10-DAY SPRINT · DEEPAL & AVATR

Two brands. One signal: *drive without limits.*

A tight, two-track content plan built for the Jordanian feed — Deepal sells **freedom & adventure**, Avatr sells **intelligence & status**. Both ride the one truth the market is waiting to hear: with range-extender (REEV) power, the range-anxiety conversation is over.

00 MARKET BRIEF — WHY THIS WORKS IN JORDAN

87%

of EVs cleared in Jordan are Chinese-made. The buyer already trusts the origin — we sell the **brand & story**, not the country.

0% sales tax

EVs are exempt from the 16% sales tax on petrol cars and sit on a low flat tax — pair the dream with the **math**.

450+

charging stations now cover the Desert Road, Dead Sea & Irbid routes every 70–100 km — the infrastructure objection is fading.

~1,000 km

total REEV range on a full tank + charge. This is the hero number for a country that drives Amman→Aqaba→Petra.

THE STRATEGIC ANGLE

Jordanians love the idea of an EV but fear being stranded on the way to Aqaba or up to the north. **REEV kills that fear.** Every Deepal post leans **adventure + freedom** (no fuel stops, go anywhere); every Avatr post leans **premium + intelligence** (silent luxury, Huawei tech, a statement in West Amman). Bilingual hooks, Jordanian dialect, evening posting.

01 THE TWO-TRACK STRATEGY

DEEPAL · TRACK A

Freedom & Adventure

Young, bold, outdoors. The G318 is the boxy hero that turns a weekend into an expedition — Wadi Rum, the Dead Sea, camping under the stars, no gas station in sight. Accessible premium, high energy.

Adventure

No range anxiety

Value

Youth

Off-road

AVATR · TRACK B

Intelligence & Status

Refined, quiet, future-facing. The 07 REEV is a statement for the West-Amman executive — Huawei HarmonyOS cockpit, sculpted design, silence inside the city's noise. Less shouting, more presence.

Premium

Huawei tech

Design

Calm

Status

02 MASTER CALENDAR — AT A GLANCE

DAY / DATE	BRAND	CONTENT	FORMAT
Sun · 14 Jun	Deepal	“The Last Fuel Stop” — cinematic teaser	REEL · AI
Mon · 15 Jun	Avatr	“Sculpted by Light” — cinematic teaser	REEL · AI
Tue · 16 Jun	Deepal	Showroom story — “First 5 seconds”	STORY
Wed · 17 Jun	Avatr	Showroom story — “Luxury is in the details”	STORY
Thu · 18 Jun	Deepal	G318 — moving carousel post	CAROUSEL · AI
Fri-Sat · 19-20 Jun	—	Weekend · Wadi Rum / city shoot days + engagement & reshares	Production
Sun · 21 Jun	Avatr	07 REEV GCC — moving carousel post	CAROUSEL · AI
Mon · 22 Jun	Deepal	“Amman → Wadi Rum” — filmed reel	REEL · FILMED

DAY / DATE	BRAND	CONTENT	FORMAT
Tue · 23 Jun	Avatr	"A Day, Reimagined" — filmed reel	REEL · FILMED
Wed · 24 Jun	—	Buffer · best-performer boost + week recap story	Optimize

Posting times (Amman): Reels & carousels perform best **8:00-10:30 PM** (after dinner, peak scroll). Stories: a morning frame ~**11 AM** + an evening frame ~**9 PM**. Avoid Friday mornings.

D SECTION ONE — DEEPAL

Sun · 14 Jun · Deepal · Reel 01

CINEMATIC (AI)

The Last Fuel Stop

“Remember gas stations?”

إيمتى آخر مرة وقفت ع البنزين؟

THE IDEA

A fully AI-generated cinematic teaser. A lone Deepal G318 rolls past a deserted, dusty fuel station on the Desert Road at golden hour — then accelerates toward the horizon as an on-screen counter climbs to **1,000 KM**. No dialogue, just engine-less calm, wind and a deep music swell. Ends on the Deepal logo + line: “لأبعد نقطة. بدون قلق.” / “To the farthest point. No anxiety.”

WHY IT WORKS (JORDAN)

Range anxiety + fuel prices are the #1 hesitation. REEV reframes both into freedom — emotional, not spec-heavy.

BEATS

- 0-1.5s — HOOK text over the empty fuel station, car entering frame
- 2-6s — low tracking shot, dust, golden light raking the boxy body + C-LED signature
- 7-12s — wide desert highway, “1,000 KM” range counter animates up
- 13-15s — logo lockup + tagline + احجز تجربة قيادة

Book a test drive · احجز تجربتك

REFERENCE

Amman → Wadi Rum

“What do you really pack for the adventure?”

شو بتاخذ معك ع المغامرة؟

THE IDEA

A real, shot-on-location reel. Open on a pile of camping gear, cooler, tents — “will it fit?” Then the G318 swallows all of it (818–1,747 L). Cut to the drive out of Amman, arrival at Wadi Rum, the front seats folding **flat into a bed**, friends watching the stars from the open tailgate. One diff-lock dune crawl for drama. Trending audio, fast cuts, real faces.

WHY IT WORKS (JORDAN)

Wadi Rum & camping is core to young Jordanian culture. Showing capability through a relatable weekend beats a spec sheet.

SHOT LIST

- Hook: gear on the ground, doubtful face → boot reveal swallowing it all
- Departure: rooftop of Amman → open Desert Road, sunroof POV
- Arrival: Wadi Rum red sand, slow 360° around the parked G318
- Payoff: seats fold flat → night sky time-lapse from inside the cabin

Plan your escape · جهّز رحلتك

REFERENCE

First 5 Seconds

“*The first 5 seconds decide everything.*”

أول 5 ثواني هي اللي بتقرّر.

THE IDEA

A 3-4 frame vertical story shot inside the Mallouk showroom. Slow, tactile detail pans that show off the **beauty of the car** under the lights — the C-shaped LED DRLs igniting, the squared-off silhouette, a hand opening the door, the rugged button-rich cabin — then a full hero reveal. Each frame holds 2-3s with a swipe-up sticker.

WHY IT WORKS (JORDAN)

Stories drive walk-ins. A polished showroom tease converts curiosity into a booked visit — low effort, daily presence.

FRAMES

- F1 — dark → LED DRLs switch on (HOOK text)
- F2 — macro pan along the boxy shoulder line & roof rack
- F3 — door opens, interior buttons / spacious cabin
- F4 — full car reveal + “Book a test drive” link sticker

REFERENCE

Use existing assets SHOWROOM_1-7 as set dressing if a fresh shoot isn’t possible.

G318 — Swipe Across the Desert

“Swipe. The desert doesn’t end — and neither does the range.”

اسحب... الصحرا ما بتخلص، والمدى كمان.

THE IDEA

An **AI-generated moving carousel** (4 slides) built as one seamless panorama: as the user swipes, the G318 appears to **drive forward across the slides** — dust kicking, wheels turning, the desert scrolling behind it (subtle looping motion per slide). Slide 1 hook → slides 2–3 the journey + one hero spec each → slide 4 the offer & CTA. Cinematic colour scene, monochrome Mallouk frame to stay on-brand.

WHY IT WORKS (JORDAN)

Carousels earn the most saves & dwell-time. The seamless “moving” gimmick stops the scroll and rewards the swipe.

SLIDES

- 1 — Hook line, G318 entering from the right edge
- 2 — mid-desert, “1,000 km range · 0 anxiety”
- 3 — dune crawl, “424 hp · diff-locks · 240 mm clearance”
- 4 — full hero + احجز تجربة قيادة + dealer handle

Mon · 15 Jun · Avatr · Reel 01

CINEMATIC (AI)

Sculpted by Light

“This isn’t a car. It’s a statement.”

هاي مش سيارة... هاي موقف.

THE IDEA

A dark, high-end AI cinematic. The Avatr 07 forms out of flowing particles & light in a black studio; the camera orbits as reflections trace the sculpted body and the full-width light bar ignites. The quad-screen Huawei cockpit boots up in a single elegant sweep. No clutter — pure design worship. Ends on the Avatr mark + “الذكاء بصمت.” / “Intelligence, in silence.”

WHY IT WORKS (JORDAN)

West-Amman premium buyers want differentiation from mass-market EVs. Huawei + sculptural design = a flex, not just transport.

BEATS

- 0-2s — black void, particles assemble into a silhouette (HOOK)
- 3-8s — slow orbit, reflections sliding over the body, light bar on
- 9-12s — interior: quad-screen HarmonyOS sweep, ambient glow
- 13-15s — logo + tagline + جلسة خاصة

A Day, Reimagined

“Half an hour in Amman traffic. Now do it in silence.”

نص ساعة بزحمة عمّان... بس هالمرّة بهدوء.

THE IDEA

A filmed “evening of an executive” reel. Boulevard / Abdoun lights, the Avatr 07 gliding silently through the city; quick beats of Huawei voice control, the calm cabin against the chaos outside the glass, then arrival at a rooftop overlooking Amman at dusk. Premium colour grade, minimal cuts, a single restrained voice-over line. Luxury = calm.

WHY IT WORKS (JORDAN)

Amman traffic & noise is a daily pain. Selling silence + intelligence is deeply aspirational to the premium commuter.

SHOT LIST

- Hook: chaotic street audio → cut inside to total silence
- Tech: hand-free voice command, screens responding
- City: smooth night drive, reflections over the sculpted hood
- Payoff: rooftop park-up, Amman skyline, badge close-up

Experience the calm · جرّب الهدوء

REFERENCE

Live shoot — no AI. Cinematic grade per Behance · automotive social.

Luxury Is in the Details

“Real luxury hides in the details.”

الفخامة الحقيقية بالتفاصيل.

THE IDEA

A macro, slow-motion vertical story from inside the showroom. Extreme close-ups that celebrate the **beauty of the car** — the quad-screen cockpit glowing, ambient light washing across leather, the flush door handle, the badge, seam lines — each detail a separate frame, ending on a full reveal under controlled lighting. Quiet, expensive, swipe-up to book.

WHY IT WORKS (JORDAN)

Premium intent starts with desire, not price. Detail-worship stories pre-sell the showroom appointment.

FRAMES

- F1 — screen glow in the dark cabin (HOOK)
- F2 — macro: stitching / material / ambient light line
- F3 — exterior light bar + badge reflection
- F4 — full hero reveal + “Book a private viewing” sticker

Private viewing • احجز جلسة خاصة

REFERENCE

Existing SHOWROOM_* assets work as the set. Keep grade cool & dark.

07 REEV — Swipe to Wake It Up

“Swipe to wake it up.”

اسحب ... وخليها تصحى.

THE IDEA

An **AI-generated moving carousel** (4 slides) in a black studio. As the user swipes, the Avatr 07 **“wakes”** — the light bar sequences on, the screens boot, the car slowly rotates across the slides (looping motion per frame). Slide 1 hook → slides 2-3 reveal + GCC tech → slide 4 the spec lockup & CTA. Ultra-premium, monochrome Mallouk frame, single accent of motion light.

WHY IT WORKS (JORDAN)

“Wake it up” is interactive & premium — it mirrors the tech promise and maximises swipe-through + saves.

SLIDES

- 1 — dark, dormant car; HOOK; light bar half-lit
- 2 — light bar fully on, “Powered by Huawei HarmonyOS”
- 3 — ¾ rotation, “~1,100 km REEV · 492 hp · GCC spec”
- 4 — hero front + احجز جلسة خاصة + dealer handle
